

SCABBinar:

Team Transfusion Medicine: Case Studies in Apheresis from a Blood Bank Perspective

Thursday – August 31, 2017

Presented by:

Tina Ipe, MD
Medical Director of Donor Services
Houston Methodist Hospital
Houston, Texas

Description: Therapeutic apheresis is used to treat a variety of medical disorders, some of which are fatal without apheresis intervention. This didactic session is designed to educate laboratory staff, physicians, fellows, and residents about the relationship of the blood bank in the care of apheresis patients. Some of the available apheresis techniques will be discussed including therapeutic plasma exchange (TPE) and red cell exchange (RCE). Important physiologic considerations and adverse consequences of apheresis caused by anticoagulation, replacement products, and fluid shifts will be highlighted. Also reviewed will be the blood components used to minimize the adverse effects.

Level of difficulty: Intermediate

Intended Audience: Laboratory staff, physicians, fellows, and residents

Continuing Education Credits:

PACE Contact Hours - 1

FL Continuing Education Credits - 1

Thursday – August 31, 2017

1:00 PM ET, 12:00 PM CT, 11:00 AM MT, 10:00 AM PT

Registration Fee:

Individual & Physician Member:	Complimentary with Membership
Individual Non-Member: (One Person, One Line)	\$80.00
Premium Institutional Member:	Included in Membership
Institutional Member:	\$50.00
Institutional Non Member: (Multiple People, One Line)	\$100.00

(REGISTRATION REQUIRED FOR ALL MEMBER TYPES)

The SCABBinar is facilitated via live conference call. All handouts, evaluations and attendance rosters will be provided for download prior to the SCABBinar. To register, visit www.scabb.org > Education Events
